

Have you done a job interview before? If not, Travis Credit Union & Biz Kid\$ are here to help. Watch a quick video at: [bit.ly/InterviewYikes](#)

INTERVIEW ME!

INSPIRE CAREER FAIR ACTIVITY

Learning Objective:

Learn how to interview well.

Directions

Imagine you are the interviewer for a job. Think about what might be important to you when looking for an employee, and answer the following questions.

1. Think of three questions that you would want to ask a person who is going to interview with you for a job.

2. Did you know that there are some questions you are not allowed to ask in a job interview? What do you think a forbidden question might be, and why would it be forbidden?

3. You have two people who interviewed really well. They seem to be very equal in their qualifications. What will you do to decide who gets the job and who does not?

4. How would you give positive feedback to a candidate that you have decided NOT to hire at this time?

5. Now that you have looked at the interview process as an interviewer, is there anything you would do differently the next time you are going to be interviewed for a job as a potential employee? Why would you make this change?
